HLP – HOOK LIFT PLATFORM

Power, safety, and efficiency—built into one rugged solution.

This exclusive platform for the Fat Truck 8X8 Hauler is engineered for exceptional performance in the toughest environments. With a compact and durable design mounted on a solid frame, it allows for quick and secure lifting and lowering of loads up to 2,200 lbs, even on rough terrain.

Its robust construction also serves as a stable support base, keeping your cargo off the ground and protected from dirt, moisture, and damage.

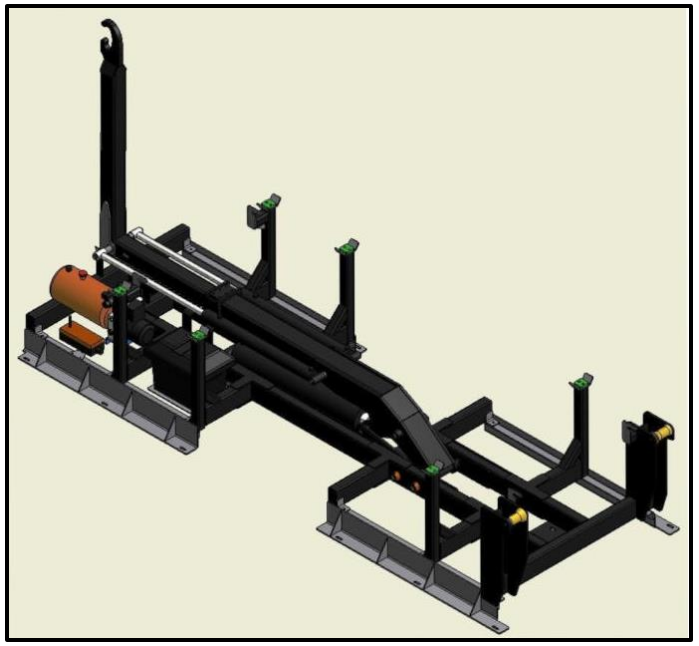

Thanks to its smooth and reliable lifting operation, this platform is the perfect solution when safe and efficient load handling is essential.
