RUFDIAMOND

JÄRNHÄSTEN FLEX

MOVABLE TOOL-MOUNT • H.D. TRACKS • WORK-HYDRAULICS

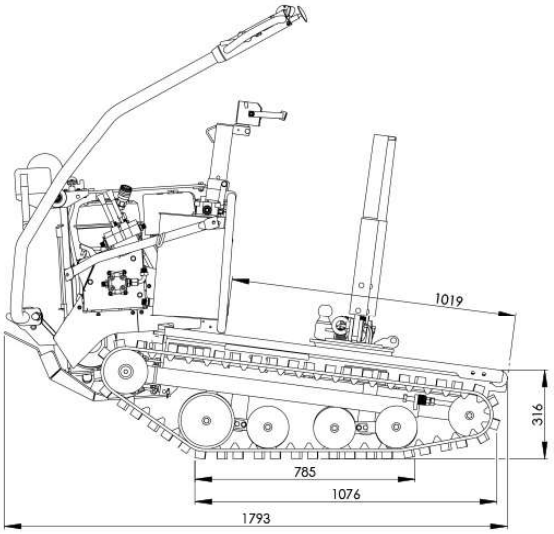

The all-round machine
The all-round model with the flexible tool-mount, which can be used to improve the overall balance, but also opens up several possibilities for a variety of add-on tools and accessories, such as the tipping platform and the timber-grapple.

For whom?
The IronHorse Flex is a model that is suitable for most users, and comes fully equipped for timber handling and forestry and is therefore clearly suitable for the self-employed forest owner who wants a professional and versatile machine. For hunters, a more basic version of this model are also available.

FUNCTIONS

- **Removable tool-mount**
  The tool bracket on which the felling bunk sits is removable
- **Strong power-winch**
  The powerful power-winch for both loading, driving and maintenance assistance.
- **H.D. Tracks**
  Track design with very long service life and improved grip, even in snow!
- **Work-hydraulics**
  Used both for the movable tool mount and for example to drive a timber trailer with crane.
